In the background, a wooden dining table with a dark finish is surrounded by light-colored upholstered chairs. A built-in wooden bench with several patterned pillows is tucked under the table. To the left, a kitchen with white cabinetry and a countertop is visible. The room features light wood flooring and a brick wall on the right side. She is consistently praised for her ability to create warm and wonderful spaces that perfectly reflect the people that live in them by incorporating personal, unique and collected elements.

WHY MELISSA?

Great question. There are a lot of designers out there, but what sets Melissa apart is her ability to be a trusted advisor in creating bespoke, thoughtful, full-service solutions for her clients. She believes that home design should be both stress-free and enjoyable.

Here are some facts about Melissa and her approach that'll give you a feel for what it's like to work with her and her team, and how she's different from the rest:

- ✦ MPI+D take on a **limited number of clients** at a time. This allows Melissa, supported by her team, to focus fully on her clients. She takes the time to understand both her clients' taste and lifestyle to offer solutions to client problems and pain points that result in spaces that are equally beautiful and practical for their lives.
- ✦ She enjoys being the **direct point of contact** for all MPI+D clients. All conversations, meetings, and questions will be handled by her personally, which makes for a straightforward and cohesive experience.
- ✦ Melissa is a **proud Toronto east-ender**, having been a board member of the Danforth East Community Association (DECA) for years. When possible, she uses local suppliers and trades who are familiar with the particular needs of east-end homes.
- ✦ With **16 years of experience as a commercial photographer**, Melissa has a unique lens through which she sees space and design (pardon the pun). She has fine-tuned her eye for what elements go together to create a sophisticated yet comfortable space.
- ✦ Melissa has **built a reputation** not only for her remarkable design but also for being a trusted advisor with a proven process to make sure things run on time, on budget and without any surprises.

MPI+D'S WORK: SMALL SPACE MAKEOVER

In this recent project, Melissa and her team transformed this small Toronto home into a bright and beautiful space that makes the most of every inch.

The owners had felt confined by the lack of space and light and were overwhelmed by how quickly the house felt cluttered due to the lack of storage. They also struggled to bring a sense of style to their house that made them feel happy and relaxed to be at home.

Melissa took the time to understand their design taste and lifestyle. She developed a design plan that they loved and then got to work. Due to space constraints, Melissa had to be very innovative with storage solutions in order to give the house order, hide clutter and create a bright and curated aesthetic. Her clients were thrilled by their stunning home that was perfectly practical for their lifestyle and family's needs.

THE MPI+D ADVANTAGE

A good designer does so much more than match your curtains to your couch. Hiring Melissa comes with all of the following benefits (in addition to a downright stunning space, of course):

Melissa brings significant experience and expertise to interior design for small and laneway homes. She understands that creative solutions can make all the difference when it comes to both form and function. THAT INTANGIBLE 'WOW' FACTOR

So much of what makes —or breaks—a space is in the tiny details. Melissa will thoughtfully consider every element of your space and how all the items work together to ensure a truly cohesive, wow-worthy space.
